Our goal is to draw attention to the protection of nature and green public**

**spaces, the promotion of healthy lifestyles and tolerant relationships in the community from the perspective of different countries.**

Through informal learning about traditional customs and creative expressions of other cultures, we seek to convey the values of global education and the importance of collaborative relationships to younger generations.

We believe that the existence of a family festival in a form of a platform used for connecting different countries, cultural institutions, organizations and individuals with a goal of cooperation in demonstration of the importance of working with children and youth in creating a positive ecological environment is very important and much needed and we hope that you share our vision.

During the festival next year, we would like to promote different cultures and traditions in fields of a healthy lifestyle, gastronomy, and art – by presenting their traditional games with the aim of encouraging children's outdoor activities, demonstrating interesting exercise techniques, healthy cuisine and other habits that contribute to quality living, creative waste management and recycling solutions, as well as artistic and cultural heritage. We would be delighted if you would join us and other participants from different countries.

The Breza Association voluntarily organizes this festival through donations, provides all participants accommodation, meals, technical support, infrastructure, promotion and a part of travel expenses.

If it is possible and you are interested in participating, we would be happy to talk to you further and discuss all the details.

We look forward to hearing from you soon.

Kind regards,

prof. ped. Suzana Vargović, director
